

Bringing Stories Alive and Kicking with Under 3's

AGES
0-3

Moyra Boland, Education Consultant

Wednesday 10th February 2010

9.30am – 3.30pm

What fun can be had when children's favourite stories are brought to life. Babies, toddlers and young children sparkle when they are involved in their favourite stories.

Bringing stories alive for children offers a rich and creative experience which involves the adult and the children entering an imagined world together. After this course story time may never be the same! As well as oral stories and using story books, introducing our youngest children to rhyme through poems and simple songs allows them to enter into the world of dramatic and exciting experiences.

Aims

- To explore practical ways to bring the characters in stories alive and interactive;
- Discover and highlight a range of stories, books and poems to stimulate and interest Under 3's.

Delegates will share creative ideas for using resources and props with Under 3's, which will enhance and make stories active

and engaging. In groups we will explore the positive benefits of adults and children entering the imagined world of stories together, provoking discussion of follow-up work relating to the stories, rhymes and poems they have explored.
